

How does climate change affect life in all fullness?

This term we have been looking at Ernest Shackleton's journey across Antarctica in English, studying our local habitat in science and looking at biomes in Geography.

Choose one challenge below – take photos and write about what you have done. You can print it or email it to homework@stpetersjun.co.uk

Wednesday 21st October

Design a climate change pebble to be placed in the school site to remind people of how to protect our environment.

Complete a litter pick with help from an adult.
Remember to wear gloves and make sure you wash your hands.

Draw a graph of your results. How much rubbish did you collect?

Write a letter to our local councillor Callum Stuart with something you believe the council can help us with to care for our local environment.

Bring it into school and we will post them together.
